EDUCATION

Vignan's Institute of Information Technology

B.Tech in Artificial Intelligence & Data Science

- CGPA: 8.66 / 10

Visakhapatnam, India

Aug. 2024 – May 2028 (Expected)

PROJECTS

AQI Predictor | React, Tailwind CSS, Chart.js, Node.js | GitHub Live

Dec. 2025 – Apr. 2026

- Led frontend development in a team project; built interactive AQI dashboards and real-time data visualization components for 25+ monitored locations using React and Chart.js.
- Designed fully responsive layouts across desktop and mobile, integrating live API data into charts covering PM2.5, NO₂, O₃, and other pollutant parameters.
- Collaborated on API integration and deployment; shipped frontend on Vercel and coordinated backend handoff with teammates on Render.

Tracer | React, Node.js, Tailwind CSS, Gemini API | GitHub Live

Apr. 2026 – May 2026

- Built a solo full-stack productivity platform for behavioral logging and pattern tracking; designed all frontend pages, protected routes, reusable components, and a centralized API client.
- Integrated the Gemini API to surface personalized behavioral insights from user activity, with a local fallback engine when the AI layer is unavailable.
- Shipped a responsive dark-themed UI with toast notifications, error boundaries, and skeleton loading states; deployed on Vercel with a Node.js backend.

EduNexes | React, Node.js, Express, Tailwind CSS, Gemini API | GitHub Live

Mar. 2026 – Apr. 2026

- Developed a student productivity platform with AI chat, subject-wise notes generation, PDF resume analysis, and personal task tracking with streak management.
- Built the React frontend and Express backend end-to-end, including REST API routes for authentication, tasks, and Gemini-powered AI workflows.
- Deployed frontend on Vercel and backend on Render with production environment configuration; repository has earned community stars on GitHub.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, HTML5, CSS3

Frontend: React.js, Tailwind CSS, React Router, Vite

Backend & APIs: Node.js, Express.js, REST APIs, Gemini API

Tools & Deployment: Git, GitHub, Vercel, Render, VS Code

CERTIFICATIONS

Programming in Java

Completed online certification course with assessed assignments

NPTEL, IIT Madras

2024

ACHIEVEMENTS

Competitive Programming

Achieved 3★ rating on CodeChef through consistent problem-solving practice

2024 – Present

Hackathons

Participated in 4+ hackathons, building and presenting functional software under time constraints

2024 – Present

Deployed Projects

3 live web applications with public GitHub repositories, actively maintained

2025 – 2026
